

**1. Self Introduction**

Good Morning Sir/Mam , I'm Meenakshi from Kovilpatti.

I am currently pursuing my B.E CSE degree in National Engineering College . I am a dedicated and responsible person.

I have improvised myself in technical skills like Problem Solving , React , Java with Spring Boot , C++ by working on projects by applying these skills and I also have soft skills like leadership and team collaboration which I gained by participating in hackathons and volunteering in College events.

**2. Career Objective**

To get placed in a company where I can learn, improve my technical skills, and grow into a responsible professional. I want to contribute my best to the team, take up new challenges, and build a strong foundation for my future

**3. Strengths and Weakness:**

My strengths include adapting to new environment and having interest in learning new technologies.

My weakness is that I concentrate only one at a time and it is hard for me to multitask . I am working hard on overcoming it by using productivity apps to increase my productivity.

**4. Aim in your life**

My aim is to build a career where I can grow into a skilled professional . I want to be in a space where I can showcase my abilities, learn continuously, and add real value to the organisation.

**5. Why Computer Science engineering?**

I chose CSE because of my interest in problem solving and knowing what happens behind the screen , this field gives a lot of opportunities to learn, innovate, and build real solutions.

## **6. Short term goals and long term goals.**

My short term goal is to improve my technical skills to advanced level by working on leading projects

My long term goal is to become a skilled professional in my domain with more expertise in the field and taking up bigger responsibilities and contributing to major projects

## **7. After 5 years where would you like to see yourself as?**

After 5 years , I will become a skilled professional with advanced knowledge in my domain , handling responsibilities independently, and contributing to important projects in my team.

## **8. Plus and minus about your department, college.**

My department has given me a space to learn and grow myself , the faculty in my department are very friendly to approach .

Sometimes the workload is heavy , but it taught me how to manage time and stress.

My college has a very good environment . My college helps me grow , by keeping alumni mentor sessions, which helped me in learning , and getting exposure to the company .

Updated labs could do it even better.

## **9. Who is your role model?**

I don't have a specific person as a role model , because I think each person have their own way of growth and development , and the person's success

depends on them.Though I dont have a role model , I want to improve myself , So i become a role model for others.

## **10. About your native place?**

I am from Kovilpatti . Like the name , the town itself has a lot of temples. And the centre of the town is occupied by the popular Shenbagavalli Amman [Temple](#) . My native place is known popularly for Peanut Candy.

## **11. Why I should hire you?**

I have technical knowledge and skills in Decentralized Applications and I also have worked on Projects using React, JavaScript and SQL.I also have leadership skills and can communicate well , which are required for your company requirements , so I think You should hire me

## **12. Why.... company?**

This company gives a good working environment, and a space where I can collaborate and grow.

## **13. What's your salary expectation?**

The job market gives 6 - 8 LPA for freshers like me, with the skills I have . So, my salary expectations are also the same.

## **14. Do you have any questions?**

I'd like to know which skills I should improve to do well in this role and contribute better to the company.

What is the current project your company is working on ?

## **15. Is this your first interview?**

Yes, this is my first interview.

**16. Do you like to work in an IT company?**

Yes , I like to work in a IT company.I'm flexible and willing to learn whatever the role requires.

**17. Are you planning for higher studies?**

No , I am not planning to do higher studies.

**18. Are you planning to become an entrepreneur?**

No, I am not planning to become an entrepreneur.

**19. Are you ready to sign a bond?**

Yes, I am ready to

**20. Can you work during night shifts?**

Yes , If required I am comfortable with night shifts.

**21. Rate your confidence level from 1-10**

I will rate my confidence level as 8.5

**22. If you're not selected,what will be your next plan?**

If I am not selected , I will try to analyse and improvise myself . I will never give up .

**23. What's your role in project?**

In my project , I have built the Student Module and a few pages in the admin Panel , where I contributed to both the frontend and backend of the modules .
