ABOUT ME

Aspiring Full stack Developer with strong problem-solving skills and a passion for building scalable and efficient web applications. Skilled in both front-end and back-end development, with a focus on delivering impactful, user-friendly solutions. Eager to contribute to dynamic teams while continuously learning and innovating through clean, maintainable code.

EDUCATION

B.E. Computer Science Engineering, National Engineering college, Tamil Nadu (2023-2027)
CGPA: 8.45/10

TECHNICAL SKILL

- **Languages & Frameworks**: C++,Java,JavaScript,Django,Flask, React, Node.js, Express, Spring Boot
- **Databases:** MySQL, SQL, MongoDB
- **Tools**: Git, GitHub, Postman, Thunder Client, Docker, VS Code,Jenkins
- **Backend & APIs:** REST APi
- **Core CS**: DSA, OOP, DBMS

SOFT SKILLS

- Analytical & Logical Thinking
- Problem Solving & Debugging
- Collaboration & Teamwork
- Time Management & Ownership
- Communication & Presentation
- Curiosity to Explore Emerging Tech

CERTIFICATIONS

- Cisco: Network Addressing & Linux
- Infosys Springboard: Prompt Engineering, DBMS, Generative AI,Devops
- ICT Academy: MongoDB
- Novi Tech: Full Stack Development

PROJECTS

College record management system(MERN)
- Role-Based Access Control (RBAC)
- Dedicated roles: Admin, Faculty, Student with specific permissions.
- JWT-based secure login and protected routes.
- Manage student profiles, faculty data, academic records, attendance, and more.
- Structured data storage with relationships between tables.
- Backend built using Express.js & Node.js.

Weather Application (HTML, CSS, JavaScript, API)
- Built a real-time weather info retriever using public APIs.

PlatPal – Mood-Based Virtual Plant Care Web App(Flask)
- A smart web application that recommends plant care activities based on the user's mood, promoting emotional well-being through virtual plant interaction.

Movie Review Web Application(MERN Stack)
- A responsive web platform that allows users to explore, rate, and review movies with an intuitive and user-friendly interface.

INTERNSHIPS

Frontend Developer Intern – Synnoviq Technologies (03/2025, Kovilpatti)
- Built responsive UIs with React, HTML, CSS, JS.
- Collaborated with designers, improved UX.

Web Development Intern – Prodigy InfoTech (2025, 1 Month)
- Worked on frontend/backend basics with React, APIs, and JavaScript.

ACHIEVEMENTS

- Shortlisted Flipkart Grid 7.0 (Round 1)
- Participated in SIH Hackathon, Hack Vega, and coding contests (NEC, Code Relay Nexus Build – SRM Valliyammai, Accenture Innovation Challenge, Flipkart Grid 6.0 & 7.0, Tata Imagination Challenge, Tata Crucible Quiz, TCS CodeVita)
- Problem-Solving: 400+ problems on LeetCode (Top 17%), 1600+ problems on Skillrack
